

Experienced Lead Developer

Books & Magic is looking for an experienced Software Developer to join our team at Vesterbro, Copenhagen. We offer a fun and challenging working day in a professional, innovative & creative environment and an opportunity to be part of the frontier defining a whole new genre.

The Job

Your main focus & responsibility will be to design and develop our platform for our Augmented Reality books. This includes game-development for the productions, tools for supporting content production pipeline, server integrations and much more, You should be self-propelled and possess great technical skills. We develop in Unity3D and .NET for backend. You should have a mindset to tackle any challenge with a balance of analytical skills and pragmatic solutions.

Skills

- ★ Strong and versatile programming skills
- ★ Experienced on the Unity3D platform
- ★ Experience with profiling and optimization
- ★ Proven experience from previous projects involving games and apps building
- ★ Software design skills
- ★ Can communicate your vision and inspire others
- ★ Reliable and on time working attitude

Awesome bonus skills

- ★ C++ / C programming skills
- ★ Experience with shader programming
- ★ Native app programming
- ★ Experience with Windows Azure

Start of employment

Preferably 1st of June.

About Books & Magic

Books & Magic is a young and ambitious company that intends to set the future standard for Augmented Reality books. We are all about interaction between pages and pixels & deliver quality interactive experiences that inspire children to read. We embrace the physical book format and put a huge amount of effort into creating our own specially meaningful interaction, exploration and play using Augmented Reality games.

At Books & Magic everyone:

- ★ Is a key player
- ★ Is a team player
- ★ Has direct influence on the product & is expected to contribute creatively with gameplay ideas
- ★ Follows the product from start to finish
- ★ Is a committed colleague that takes responsibility, care for one another and help each other.

Help us explore the frontier of making books truly interactive and fun by bringing the world of games into the pages of books.
